Instructions
1. Follow Mappedskills Brand DNA
2. Ensure that each section is not loaded with text.
3. Keep the text free from technical jargon. Keep the language easy and something that the customer talks in general, not what marketers may only understand
4. Try to keep the text shorter
5. No double dash or long dash.
6. Every section should tell its story
7. When you are showing the journey, the journey points should auto-progress from one step to the next with a gap of 2 seconds in between
8. Ensure every tile follows the dual color scheme.

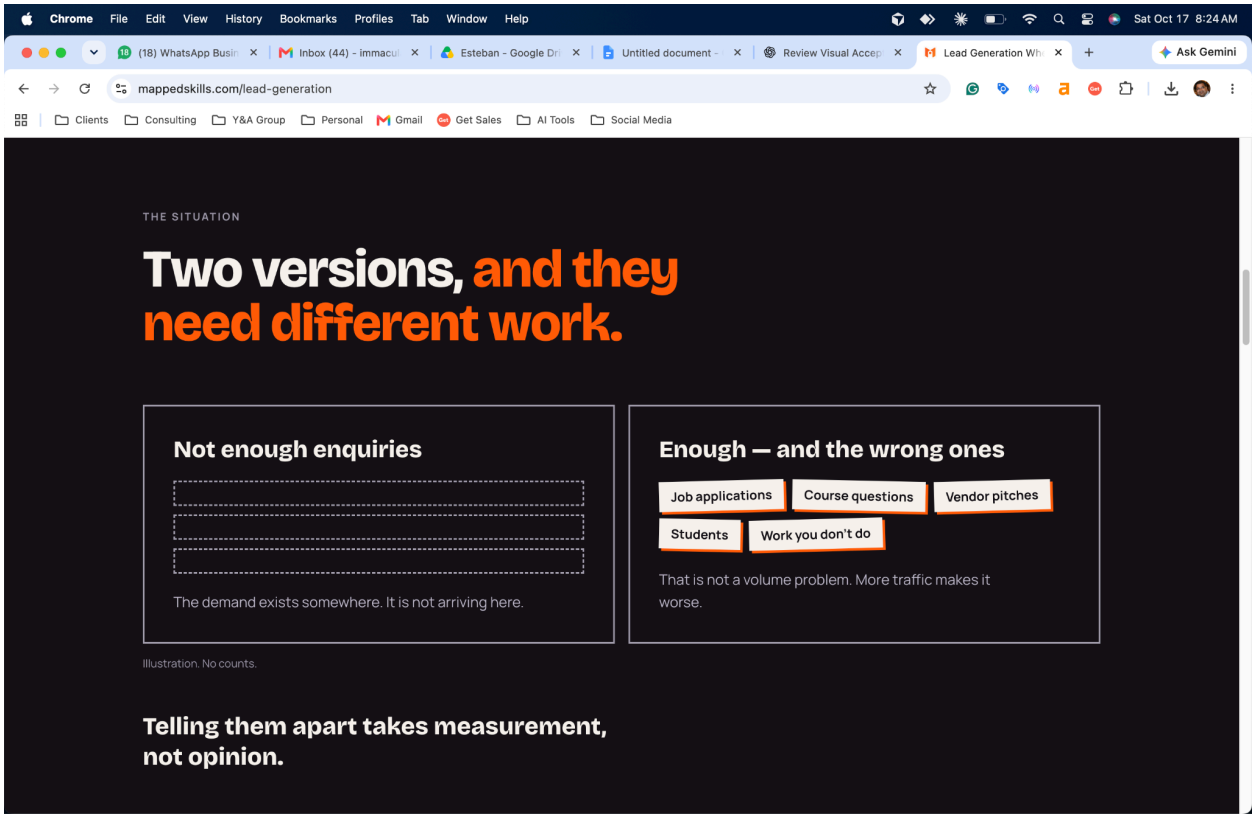

Follow the above instructions strictly

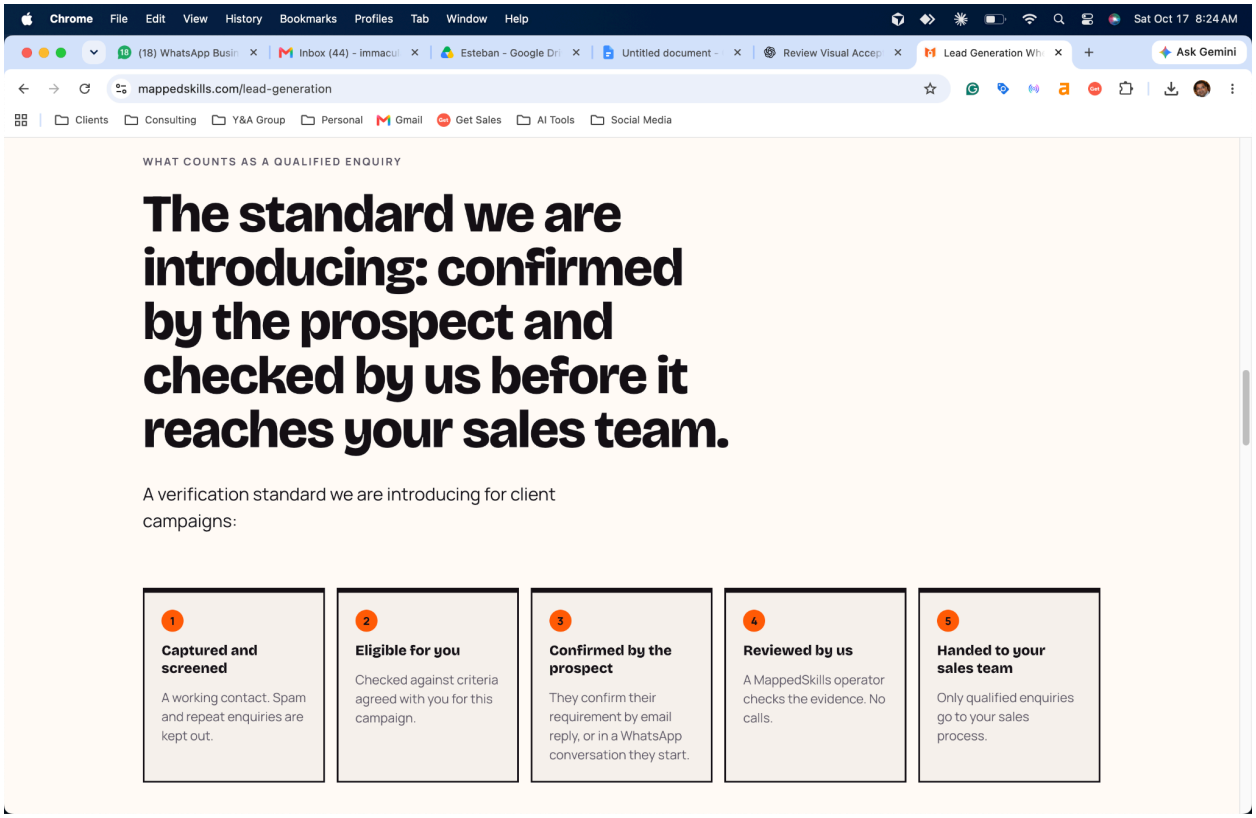

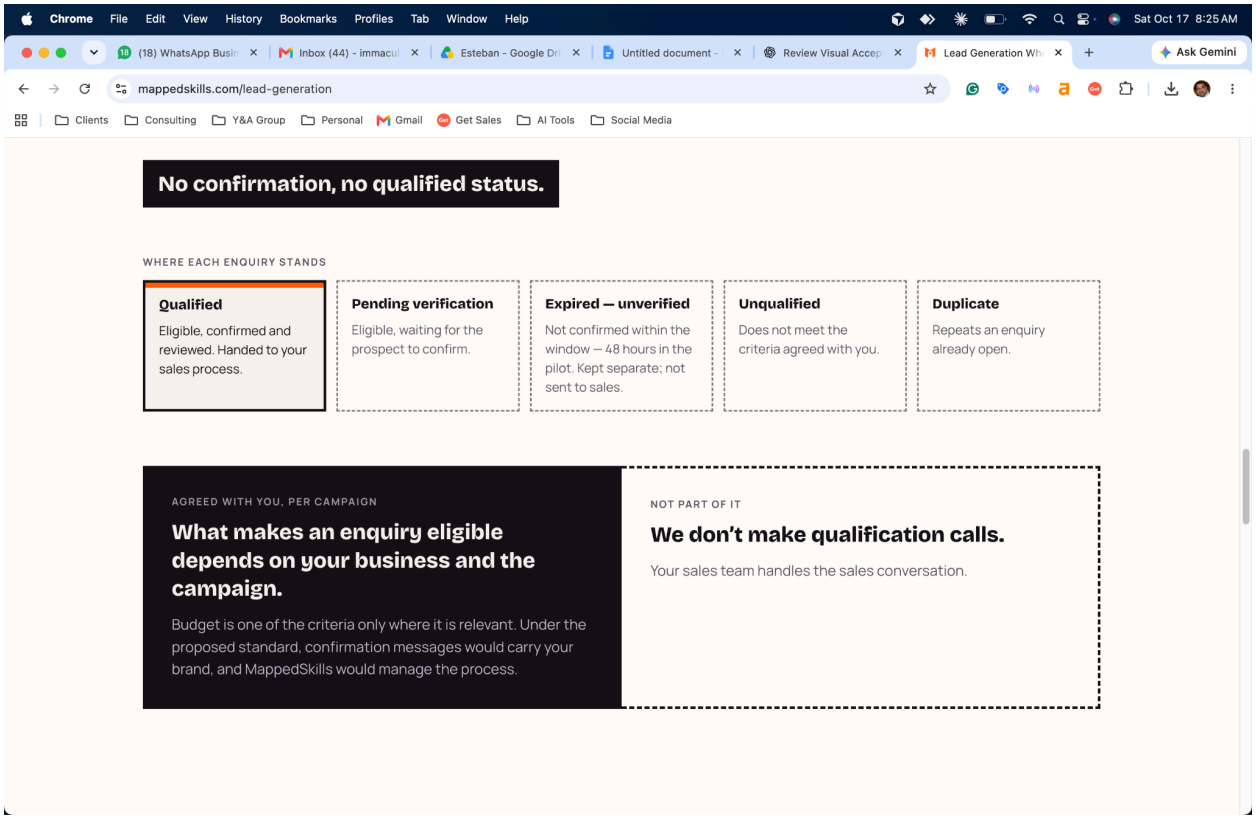

As usual, the hero section is too big and does not fit into the “above the fold” The hero section should be completely visible in the “above the fold”

The right-hand side form if we can remove the budget line. The form height can be reduced if possible.
On the left-hand side, if we shorten the title and the description below.

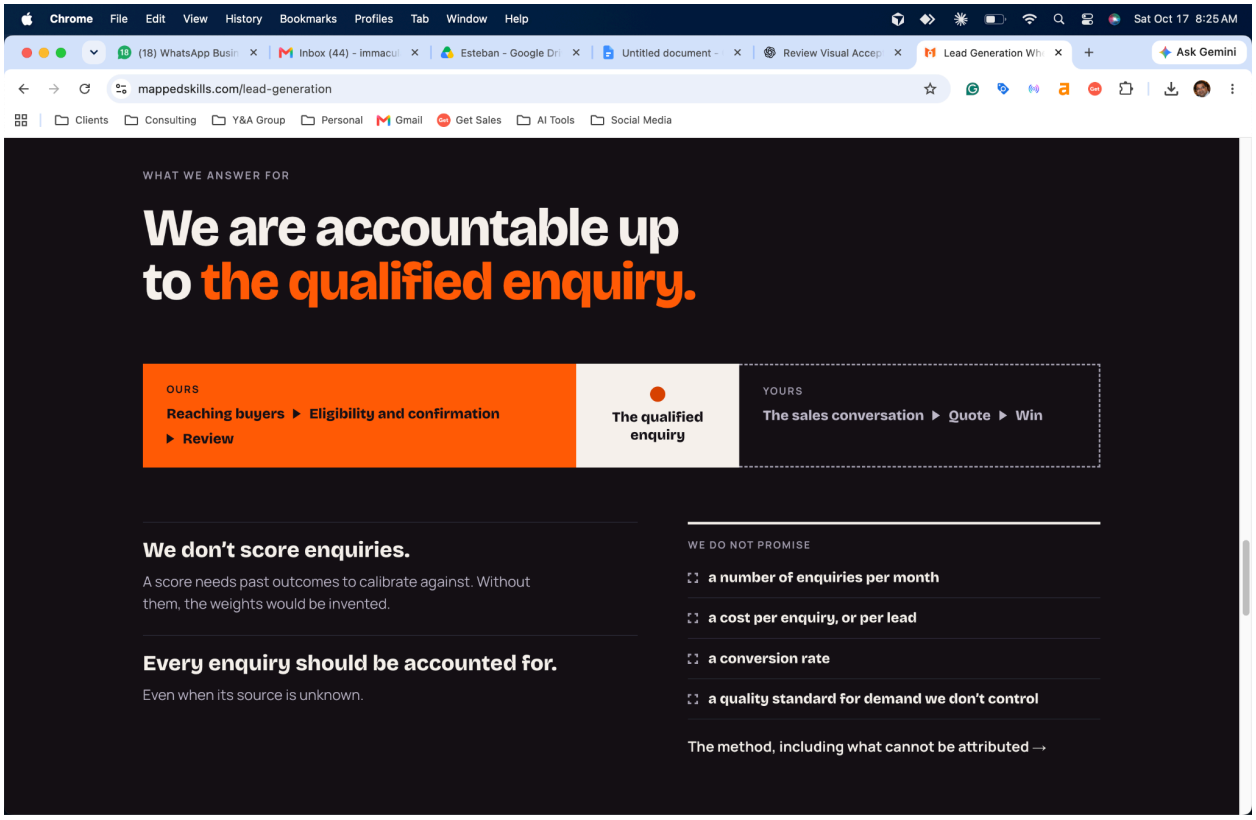

The title is technically correct, but user may not get the problem statement. Use language that customer understands not the marketer.

WHAT COUNTS AS A QUALIFIED ENQUIRY
The standard we are introducing: confirmed by the prospect and checked by us before it reaches your sales team.
A verification standard we are introducing for client campaigns:
1
Captured and screened
A working contact. Spam and repeat enquiries are kept out.
2
Eligible for you
Checked against criteria agreed with you for this campaign.
3
Confirmed by the prospect
They confirm their requirement by email reply, or in a WhatsApp conversation they start.
4
Reviewed by us
A MappedSkills operator checks the evidence. No calls.
5
Handed to your sales team
Only qualified enquiries go to your sales process.

No confirmation, no qualified status.
WHERE EACH ENQUIRY STANDS
Qualified
Eligible, confirmed and reviewed. Handed to your sales process.
Pending verification
Eligible, waiting for the prospect to confirm.
Expired — unverified
Not confirmed within the window — 48 hours in the pilot. Kept separate; not sent to sales.
Unqualified
Does not meet the criteria agreed with you.
Duplicate
Repeats an enquiry already open.
AGREED WITH YOU, PER CAMPAIGN
What makes an enquiry eligible depends on your business and the campaign.
Budget is one of the criteria only where it is relevant. Under the proposed standard, confirmation messages would carry your brand, and MappedSkills would manage the process.
NOT PART OF IT
We don't make qualification calls.
Your sales team handles the sales conversation.

In the section above, the title is too long and doesn't follow the two-color title format. The section is too long and it needs to presented well with less text.

There is too much of text, an it needs to be really simple for the user to understand it clearly.
